DETAILED ACTION

1. The request filed on 8/7/06 for Continued Examination (RCE) based on parent Application No. 10/805,023 is non-responsive.
2. MPEP section 706.07 (h), 819 states that in an RCE any newly submitted claims that are directed to an invention that is independent and distinct from the invention will be withdrawn from consideration and not entered. An RCE is not the filing of a new application. Applicant has submitted new claims that are not directed to the original claimed invention. The pending claims have been cancelled and new claims which do not further limit the originally claimed invention have been added. The Examiner finds that the new claims relate to a different aspect of the invention which overcomes the teachings of the cited references.

New independent method claim 21 deals with a job controlling method in a computer system which includes a host computer and a storage apparatus, comprises 4 steps:

- (a) storing condition information ...,
- (b) defining a job ...,
- (c.) calculating an inconsistency degree of the defined job ..., and
- (d) outputting result of comparison of the parameter.

Art Unit: 3629

Previous independent method claim 15, which has been canceled, deals with a controlling method of an information processing device, has 3 steps:

- (a) storing a control strategy of the information processing system,
- (b) receiving parameters settings for said processes; and
- (c.) changing said parameters settings so that policies meet the control strategy when said parameters are set to said processed defined in said policies.

Thus, the new claims relate to an invention that is independent and distinct from the originally claimed invention and will not be considered.

Applicant may want to consider filing a divisional application. See 37 CFR 1.111.

3. Applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

Extensions of this time period may be granted under 37 CFR 1.136(a).

Art Unit: 3629
